Direction des Applications Militaires

# A global HPC strategy since 1996

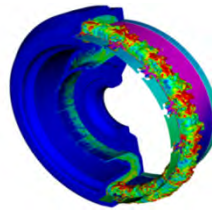

- Independent access to technology

- World class infrastructures

- Important spin-off to industry and society

From Research to Industry: TGCC & Ter@tec Campus

2013-2014  
France

A successful business model since 2003

September 2013  
French President F. Hollande  
announces 34 "Industrial plans"

Gérard Roucairol  
President of Ter@tec  
is the leader of the plan

CEA is the operator for  
"New generation of supercomputer"

May 19<sup>th</sup> 2014:  
Supercomputer plan  
is launched

**SRA April 2013**

An agenda towards the exascale as well as pervasive HPC

**cPPP December 2013**

500M€ for European HPC technology

**2013-2014**  
**Europe**

*May 2014*

*An agreement between 4 leading entities active along the whole HPC value chain [technology, infrastructure, applications] to support the European Commission strategy*

The Commission has committed under Horizon 2020 to partnerships with industry in the form of contractual Public-Private Partnerships (cPPP) in eight areas:

.../...

- High Performance Computing (HPC), which plays a pivotal role in stimulating Europe's economic growth and advancing European science

.../...

For the whole seven year period, EU funding is expected to be in the order of € 6.2 billion, divided as follows:

.../...

- €700 million for High Performance Computing (€142 million in 2014-2015)

.../...

Barcelona Supercomputing Center (BSC), Cineca Consorzio interuniversitario (CINECA), Commissariat à l'énergie atomique et aux énergies alternatives (CEA) and Forschungszentrum Jülich (FZJ) have agreed to coordinate themselves in order to continue the implementation of the European High Performance Computing (HPC) strategy through technology development as proposed in Horizon 2020. The objectives of the agreement are to coordinate HPC R&D and Innovation efforts of the partners, leveraging joint efforts for better effectiveness; to help building a globally competitive value chain and HPC flagship industry from hardware to applications; to support the EU HPC strategy defined at the level of the European Commission, and collaborate in alignment with it. .../...
