Seagate® ClusterStor™ File System Options

ClusterStor Engineered Solutions for HPC

File System Environment

Data Protection

Seagate

Systems Mgtm Seagate

Embedded Controllers Seagate

Storage Enclosures

Seagate Purpose-built SSD or HDD Drives

3 Reasons Why
Seagate ClusterStor

#1: ClusterStor is Proven at the Highest Scalability

 Seagate ClusterStor powers both European supercomputers in the Top 10

 Seagate ClusterStor is in production at 6 of the top 10 supercomputing customers in Europe

Sample of European ClusterStor Customers

High-Performance Computing Center | Stuttgart

SEAGATE

Legacy

Leader

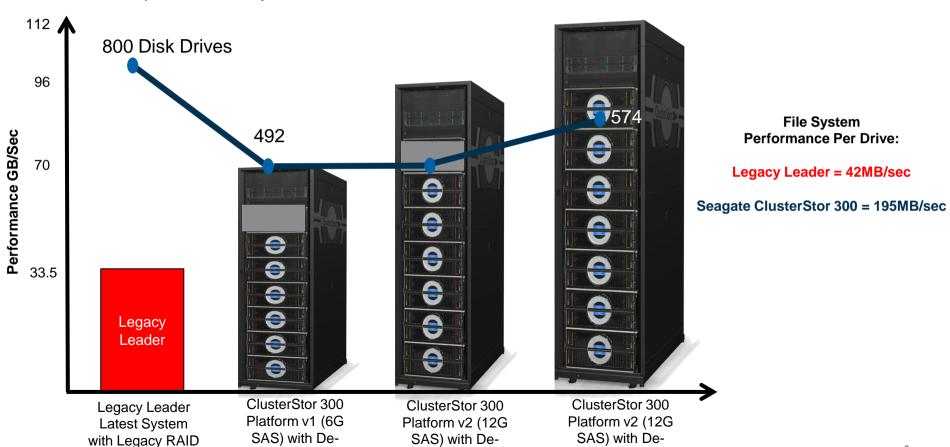

#2: Leading Performance Per Drive

Clustered RAID

Real Comparable File System Benchmarks

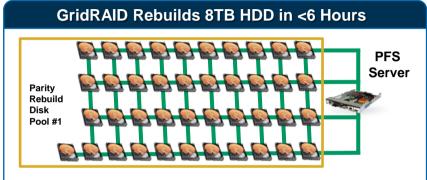

Clustered RAID

Clustered RAID

#3 ClusterStor Productivity & Reliability

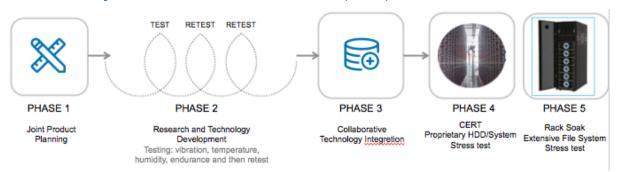

Productivity: Seagate De-Clustered RAID Rebuilds Failed Drives Up To 6x Faster

Single Line Definition of GRIDRAID with Benefit

Reliability: Drive Annual Failure Rate (AFR) <1%

ClusterStor Manager

Single Management Interface for Management, Monitoring, Reporting, Guided Repairs, Diagnostics, etc.

Seagate Systems European Partnerships

is incorporate in **Dublin**, Ireland

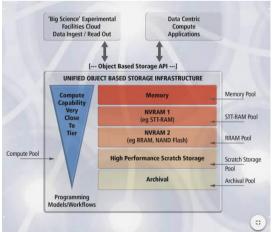

Sample European Systems Partners

Seagate led EU consortium defining the future of Exascale class storage, funded by Horizon 2020 Research & Innovation Program

Seagate development office now established at TERATEC campus

Expansion of development team underway
