

FORUM TERATEC -June
2017

**Our Mission is To Deliver
Solutions which Enable Your
Discovery and Innovation**

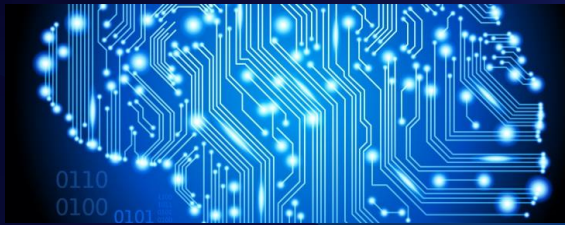

Many workloads | One architectural framework

Machine Learning

Modeling & Simulation

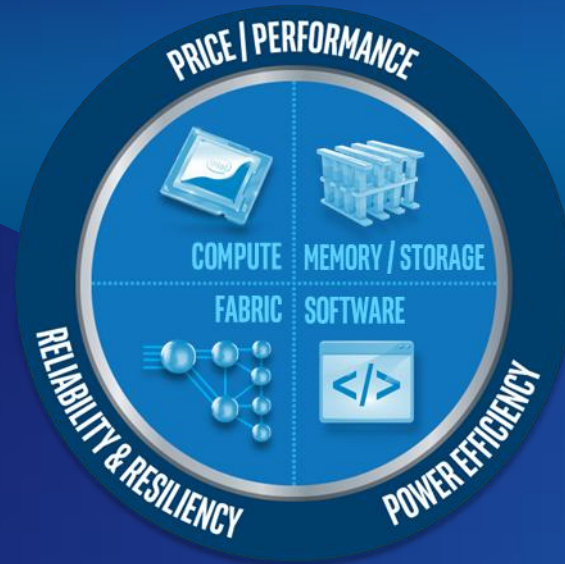

visualization

High Performance

Small Clusters Through Supercomputers

Compute and Data-Centric

Standards-Based Programmability

On-Premise and Cloud-Based

Intel® Scalable System Framework

Some Examples of the Amazing things we do together

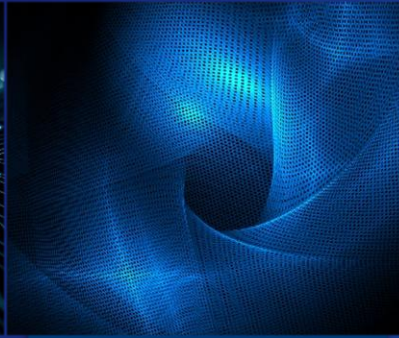

Origins of the Universe

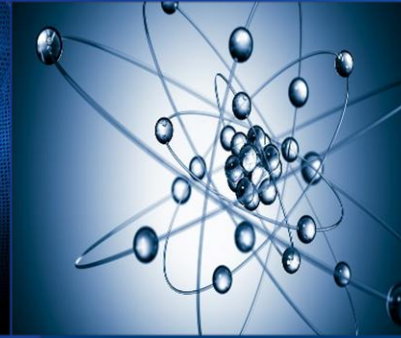

Weather Forecasting

Energy Research

Material Science

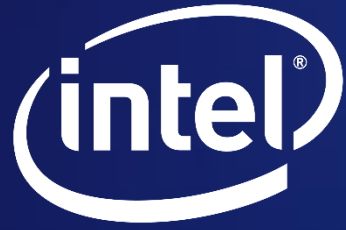

Physics

Personalized Healthcare

We want to hear from you on how we can better partner

Q&A
