

THE INTERNATIONAL MEETING for HPC, SIMULATION & BIG DATA
19th & 20th of June, 2018 – Ecole Polytechnique, Palaiseau (France)

Teratec Forum 2018: En route to the Future!

For its 13th year, the Teratec Forum will take place in Palaiseau (France), on the Campus of Ecole Polytechnique, next June 19th and 20th.

During two days, this large event where international experts in HPC, Digital Simulation and Big Data meet will be offering the most complete market vision, covering among the following:

- our **Plenary sessions** to keep abreast of latest developments in numerical technologies and stress the importance of current and future stakes regarding HPC Simulation and Big Data, all contributing to raising competitiveness of companies and businesses.
- our **Technical and Applications Workshops**, presenting emerging and most promising methodologies and technologies in hardware and software in the field of HPC, Digital Simulation and Big Data. Introducing the newest applications across diverse sectors of industry, BIM and Smart City, Deep Learning, Artificial Intelligence (AI), predictive maintenance, Digital Twin or, quantic revolution, multimedia... will be among the themes on our agenda in 2018.
- **The Exhibition**, with more than 70 booths, allowing you to discover what is most innovative in the fields of hardware, software and service technologies nowadays.
- **Thematic spots**, adding to the Forum at large in an educational, user-friendly mode:
 - SiMSEO area dedicated to spread the Digital Simulation practice within SMEs and ETIs
 - The European Café for Research
 - The Collaborative Projects' area
 - The Networking area to mingle with like-minded French and International Participants
- **This year's 4th Awards of Simulation and Digital Technologies** is organized in Partnership with L'Usine Nouvelle and L'Usine Digitale magazines.

Meet us at the TERATEC FORUM 2018

Tuesday 19th And Wednesday 20th of JUNE, 2018 - ECOLE POLYTECHNIQUE, PALAISEAU (FRANCE)
